HIGHER EDUCATION SOLUTIONS: A COMPREHENSIVE SOLUTION

Ellucian carries state-of-the-art integrated student information solutions with an exclusive focus on Higher Education since 1968. With 3,500 employees serving more than 2,700 institutions and 26 million students in more than 50 countries worldwide, Ellucian is the industry leader in Higher Education.

Whether you are a startup, a medium-sized, or a large university, **ITB** has the right solution for you.

Ellucian Banner®

To stay competitive, institutions need to deliver a convenient, connected technology experience that makes everyday tasks easier. Built to meet that challenge, Ellucian Banner® can help your institution thrive.

Increased visibility

Easily access the insights you need to enable collaboration across departments and improve processes and workflow.

Designed for higher education

Power your institution with a full SIS focused on addressing higher education unique challenges.

Flexibility

Choose from SaaS, private cloud, and on-premise options, based on your needs and strategic goals.

A single partner

Deep higher education expertise and product knowledge from a single end-to-end partner.

Extensibility and scalability

Extend your SIS suite with our extensibility tools. Scale your system with our Shared Technology Platform to navigate your institution's systems.

PowerCampus

PowerCampus™ helps various types of institutions bring together constituents, processes, and technology to improve performance and reduce costs.

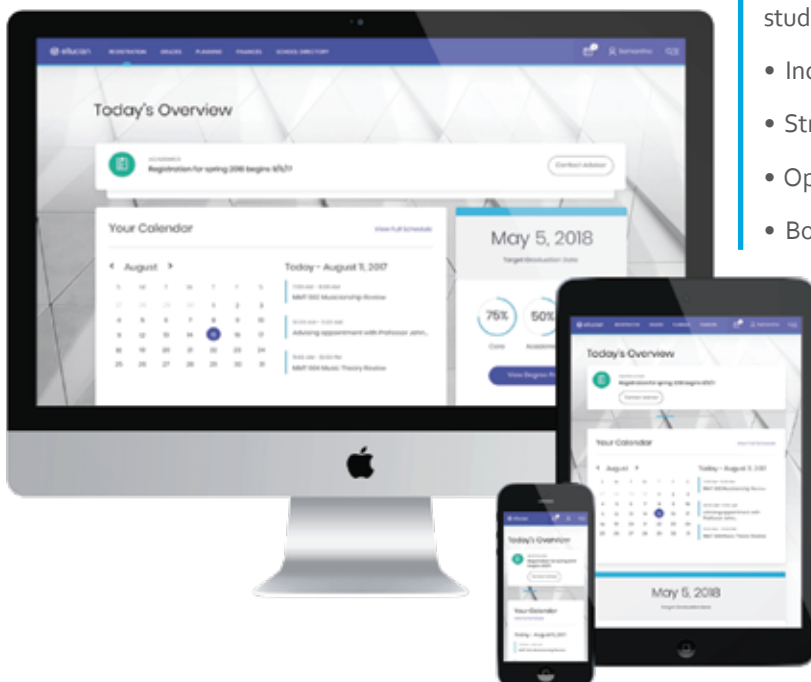

It enables colleges and universities to automate all of their most critical, student-related tasks, particularly with regard to Admissions, Academic Records, Billing and Cash Receipts, and Financial Aid.

- Automate your critical processes and improve your student-facing service experience
- Increase institutional efficiency and effectiveness
- Streamlined and automated online registration process
- Optimization of all the institution's courses
- Both students and staff stay on track with minimal effort

Mobile and Web services

Ellucian PowerCampus provides web-enabled access with highly advanced self-service and customization capabilities. Both staff and students track rule-based activity including communication, grading and grade history.

By adding the Ellucian Mobile solution, users gain real-time access to both their information and many of the benefits of PowerCampus— from any mobile device.

HIGHER EDUCATION SOLUTIONS: ENHANCED EXPERIENCE

Ellucian Experience
