INTERNATIONAL PRESENCE

Who we are

A third party logistics company with solid track record.

We provide Logistics, Warehousing & Distribution services to customers looking to outsource their internal logistics functions so they concentrate on their business operations and development.

What we do

We deliver day-to-day activities in the area of warehouse, goods management, and distribution.

Improving your speed-to market, customer service, and inventory control operations.

We provide you with customized and flexible offerings in different types of services.

How we do it

We are flexible to your needs and help you manage your goods all while handling your distribution logistics.

We ensure a reliable and cost-efficient distribution with prompt delivery of your products to the right destination, on time, on budget, and all across Lebanon.

The market now

Efficient warehousing and distribution management is central for commercial success as businesses require resourceful services to succeed in a highly competitive environment specially when product lifecycles are short and the pressure time-to-market is critical.

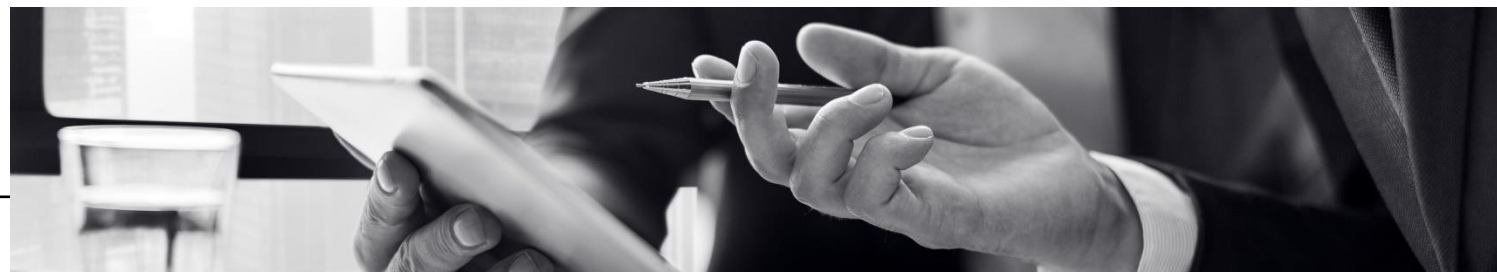

Our customers

We service customers looking to outsource their internal logistics functions, for a higher level of service, while enabling them to:

Free-up part of
their capital

Reduce their
overall operating
costs

Enable them to
concentrate more
on growing and
developing their
business

Our personnel

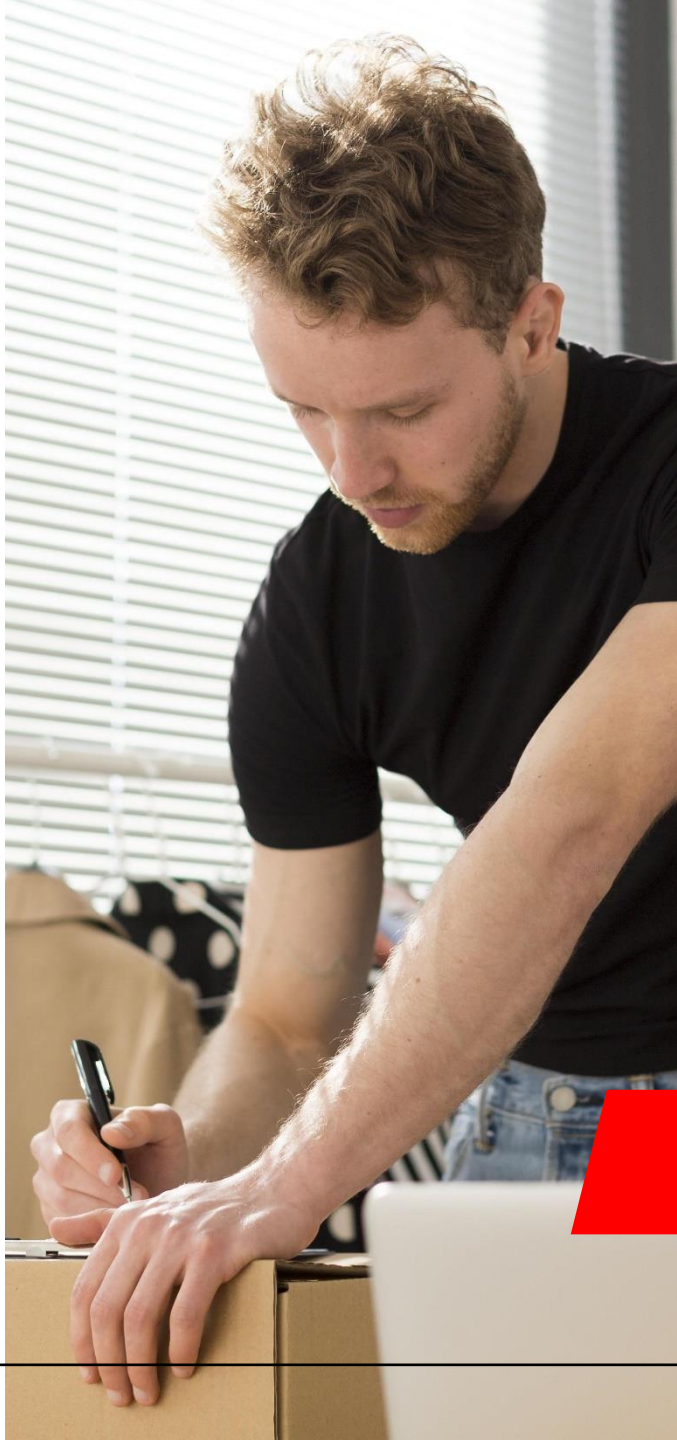

Dedicated and skilled.

They provide efficient logistics solutions that are customized and flexible to your specific requirements.

Our high-capacity warehouse

We use the latest technologies in terms of equipment and software solutions. They are the key elements that ensure quality logistics services.

Our full end-to-end services

A comprehensive warehousing management, beyond inventory management with storage space designed to support a wide range of different industries.

Our full end-to-end services

Managing the flow of your goods to optimize productivity.

We provide a complete range of value added services:

- Goods management
- Assembling
- Handling in & handling out
- Picking by serial numbers
