

SWIFT NEW RELEASE

Introducing the all-new pop-up notification feature

Discover the all new game changing Pop-Up Notification feature from Swift, your essential tool for staying ahead in today's dynamic world of innovation:

Real-time Updates:

Instantly display changes in pricing, item availability, or special offers, ensuring customers stay informed without delays.

Increased Visibility:

Grab customers' attention with prominent, fully customizable notifications, ensuring important messages or promotions never go unnoticed while boosting engagement with the menu.

Personalized Messaging:

Deliver tailored messages based on preferences or past orders, enhancing targeted marketing and customer experience.

Promotions and Upselling:

Highlight special deals to encourage upselling and boost sales effectively.

Improved Customer Experience

Keep customers informed, reducing confusion, and enhancing satisfaction.

Efficient Communication:

Facilitate seamless interaction between staff and customers.

Analytics and Data Collection:

Collect valuable customer data on preferences, behavior, and menu engagement to inform decisions on menu, pricing, and marketing.
